Agus Setyo MUNTOHAR, Ph.D.
Ph.D. in Engineering

Geotechnical Engineering

PUBLICATIONS

REFEREED JOURNALS

42 Muntohar, A.S., 2013, Research on Earthquakes Induces Liquurfaction in Padang City, Pertemuan Ilmiah Tahunan HATTI ke-17, Jakarta, Indonesia, 13-14 November 2013 pp. 231-235

43 Muntohar, A.S., Fauzi, F., 2013, Perilaku Fondasi Tiang Bor Kelompok Dengan Model Elemen Hingga 2D Dan 3D (Behavior of Group Bored-Pile in the 2D and 3D Finite Element Model), Konferensi Nasional Teknik Sipil 7 (KoNTekS 7), Universitas Sebelas Maret, Indonesia, 24 – 26 Oktober 2013, pp. 141-149

46 Diana, W., Muntohar, A.S., Rahmawati, A., 2012, Kuat tekan bebas tanah lempung yang distabilisasi dengan limbah karbit dan abu sekam padi (Unconfined Compressive Stregth of Clay Stabilized with Carbide Waste and Rice Husk Ash), Konferensi Nasional Teknik Sipil ke-6 (KoNTekS 6), Universitas Trisakti Jakarta, Indonesia, 1–2 November 2012, (CD ROM)

60 Muntohar, A.S., and Wardani, S.P.R., Liquefaction Potential Post-Earthquake in Yogyakarta. The 17th SEAG Conference, 10-13 May 2010, Taipei, Taiwan

61 Muntohar, A.S., 2009, Reliability of the Method for Determination of Coefficient of Consolidation (cv), Pertemuan Ilmiah Tahunan HATTI ke-13, 5-6 November 2009, Denpasar, Bali, pp. 70-75

73 **Muntohar, A.S.,** 2004, Uses of RHA to enhanced lime-stabilised clay soil, International Conference of Geotechnical Engineering, 2-6 October 2004, University of Sharjah, United Arab Emirate

75 **Muntohar, A.S.,** 2003, Inclusion of random rubbish-fiber as temporary embankment reinforcement, The 6th National Conference on Road Engineering, 6-8 October 2003, Jakarta, Indonesia

76 **Muntohar, A.S.,** 2003, Lime-column in expansive soil: a study on the compressive strength, The International Conference on Civil Engineering (ICCE), 1-3 October 2003, Brawijaya University, Malang, Indonesia

77 Basha, E.A., Hashim, R., Mahmud, H., **Muntohar, A.S.,** 2003, Use of rice husk ash and cement to improve the geotechnical properties of residual soil, The International Conference on Civil Engineering (ICCE), 1-3 October 2003, Brawijaya University, Malang, Indonesia

INVITED LECTURER

BOOKS

88 Rice Husk Ash – Stabilised Expansive Soils, Publisher: Lambert Academic Publishing, Germany, 2011

89 Tanah Longsor: Analisis, Prediksi, Mitigasi (Landslides: Analysis, Prediction, Mitigation) Publisher: UMY, 2010

90 Mekanika Tanah, LP3M UMY, 2009

91 Swelling Characteristics and Soil Improvement of Expansive Clay with LRHA, Research Report, Publisher: University of Malaya, 2003

92 Jembatan (Bridge), Publisher: Beta Offset, 2000

BOOK'S CHAPTERS

93 Chapter 4 - Lessons Learned from the Recent Natural Disasters in Indonesia, in J. Chu et al. (eds.), Geotechnical Predictions and Practice in Dealing with Geohazards, Geotechnical, Geological and Earthquake Engineering 25, Springer Science+Business Media Dordrecht 2013

94 Chapter 3 - Prediction and classification of expansive clay soils, in Expansive Soils Recent Advances in Characterization and Treatment, Amer Ali Al-Rawas and Mattheus F. A. Goosen (Editors), 2006

95 Chapter 11 - Swelling rate of expansive clay soils, in Expansive Soils Recent Advances in Characterization and Treatment, Amer Ali Al-Rawas and Mattheus F. A. Goosen (Editors), 2006

96 Chapter 30 - Swelling characteristics and improvement of expansive soil with rice husk ash, in Expansive Soils Recent Advances in Characterization and Treatment, Amer Ali Al-Rawas and Mattheus F. A. Goosen (Editors), 2006
PAPER BEING REVIEWED/PREPARED TO BE PUBLISHED
